GreenPro Trust Ltd is governed by the Trustee Ordinance Cap 29 of Hong Kong and the Recognition of Trusts (Hague Convention) Cap 78.

**Premier wealth
management and
inheritance**

WHAT IS A TRUST?

A trust is a legal arrangement where one person (the "settlor" or "grantor") transfers ownership of assets to another person or entity (the "trustee") to hold, manage and distribute those assets for the benefit of one or more other individuals or entities (the "beneficiaries").

WHY TRUST ?

Trusts VS Wills

TAX PLANNING

Tax-efficient when making estate transfers.

BYPASS PROBATE

The nature of a trust allows it to bypass probate, enabling direct and efficient transfer of assets to beneficiaries while avoiding costs and delays.

FLEXIBILITY

Trusts offer greater flexibility in managing and distributing your assets. You can choose any person or entity as a beneficiary and specify how and when each beneficiary will receive their share of the trust assets.

PRIVACY PROTECTION

Trust ensures the confidentiality of the settlor's financial arrangements and the beneficiaries' information without being disclosed to the public.

INHERITANCE

Trusts are a combination of wealth management and wealth transfer, creating long-term value for assets.
